PROFILE

Professional with experience in diagnosing, repairing, and maintaining industrial equipment, specializing in high-resolution coding and labeling systems. Additionally, I have experience in logistics and forklift operation. I excel in problem-solving, test automation, and process optimization.

WORK EXPERIENCE

UNITED BARCODE SYSTEMS

Senior Technician in Marking Systems Diagnosis and Calibration (April 2024 - Present)

I am responsible for diagnosing, repairing, and maintaining high-resolution coding equipment, as well as other labeling and marking systems. My role includes automating testing, calibrating precision equipment, and troubleshooting technical issues. I collaborate closely with the engineering department to enhance processes and also assist in preparing reference models for the commercial team, ensuring the best technical solutions.

MEDIA MARKT

Forklift Operator (06/2021 - 12/2021)

I was in charge of loading and unloading all warehouse materials. I managed the digital registration of merchandise in the database and handled stock control to ensure proper inventory management.

VIVE LA MADERA

Forklift Operator (10/2019 - 04/2020)

My responsibilities included loading and unloading trucks in a wood warehouse, as well as receiving, placing, and preparing orders using picking methods. I handled wooden beams up to 13 meters long and managed stock information through a digital database.

LEROY MERLIN

Forklift Operator (06/2019 - 12/2019)

I was responsible for order management, ensuring the correct reception and dispatch of products.
